Mobile Shredding (On-site)

(Information destruction approved to BSEN15713, CPNi & Government Security Classifications)

Secure storage containers provided to customers in order to minimise opportunist theft of confidential documents. A service for archive clearances also available.

Mobile shredding service – standard & high security (double shredding) options available. Service undertaken by trained & vetted staff using alarmed & satellite tracked vehicles. Certificate of Destruction issued.

All paper records recycled in the UK back into new printing & tissue paper completing the recycling loop.

Completing the Cycle

Office waste paper, is processed at one of our depots into 25 tonne loads. These are sent for recycling into printing paper & tissues papers in UK mills.

Cardboard is processed at one of our depots into 25 tonne loads. These are then transported to board mills for recycling back into a range of cardboard packaging in UK, European and Asian mills.

Newspapers & Magazines, is processed at one of our depots into 25 tonne loads. These are then transported to mills such as Aylesford Newsprint for recycling into more newsprint.
