Please ensure that when Perry's drivers are attending your site there are no pedestrians or obstacles in their way. Personnel must stand well clear and within full view of the driver at all times.

Perry's drivers are not allowed to collect bins from any level other than ground floor unless a lift is available. Customers are asked to place bins in a suitable ground floor collection point when full. Also inform Perrys of any access restrictions, i.e: Car park access before 8am only etc.

We suggest that customers carry out their own risk assessment regarding safe handling of wheelie bins provided, and forward this safety guidance document to their Health & safety representative.

Wheeled bins should be stored away from any heat source as this could be a potential fire hazard. Also, please ensure bins do not block any fire equipment or fire exits.

Customers are asked to ensure that bins are used only for the purpose they are supplied for. ie: paper, cardboard etc. Glass or sharp objects must not be put into bins because they will cause a hazard to anyone processing the contents.

Keys will not be provided for locking wheelie bins, so please ensure that any paper posted into the bin is for disposal.

Perrys drivers are instructed to obey customers site safety rules. If there are any special instructions, please inform the driver or advise Perry's office.
