

Security Shredding Procedure

(Closed loop recycling & approved to Information Destruction Standards BSEN 15713)

Recycled into new paper

On-Site Mobile Shredding Procedure

(Closed loop recycling & approved to Information Destruction Standards BSEN15713)

Free secure storage containers provided to customers, to minimise opportunist theft of documents from cleaners and staff. Also provide archive clearouts for stored documents.

Convenient mobile shredding at the customers site, to view the destruction first hand, with certificate of destruction issued, with vetted staff and satellite vehicle tracking.

All paper records are recycled into new printing paper in the UK, completing the recycling loop.

Completing the Cycle

Office waste paper, is processed at one of our depots into 25 tonne loads. These are then transported to mills such as M-Real for recycling into the Evolve range of printing papers.

Cardboard, is processed at one of our depots into 25 tonne loads. These are then transported to mills such as St. Regis for recycling into more cardboard packaging.

Newspapers & Magazines, is processed at one of our depots into 25 tonne loads. These are then transported to mills such as Aylesford Newsprint for recycling into more newsprint.

Aylesford Newsprint
An SCA Forest Products
and Mondi company

Customer compliance assured.
